

## Mindray DP-30

**The economical Mindray DP-30 is a lightweight, portable black and white scanner ideal for a small animal, equine or mixed practice.**

**Quality images at a great value price**

The DP-30 provides quality black and white images at an economical price, making it ideal for use in general practice.

**Scanning straight away**

With an almost instant start up you are quickly ready to begin scanning your patient.

**Wide range of probes**

The DP-30 is available with a wide range of probes for veterinary applications.

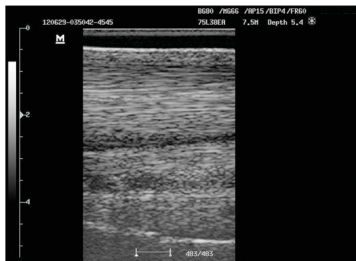

A new DP-30 system, available exclusively from BCF, comes with a one-year warranty for a price comparable to that of many second hand machines.

Canine Spleen with 5.0-8.5 MHz micro-convex probe

Canine Kidney Longitudinal with 5.0-8.5 MHz micro-convex probe

Equine Distal Limb Longitudinal with 5.0-10.0 MHz linear probe

Equine Distal Limb Cross Section with 5.0-10.0 MHz linear probe

The DP-30 is lightweight (5.5 Kg) and highly portable.

The 12.1 inch screen on the DP-30 tilts to provide optimal viewing.

The optional rechargeable battery gives you the flexibility to work in any environment, even without access to mains power.

## BCF because...

- We listen to your needs and offer open and honest advice
- Help you and your team learn more to ensure you make the most of your equipment
- Offer the complete solution for ultrasound, X-ray and digital image management
- Complete customer support and back-up.
